The Problem:

Numerous Wisconsin Residents are now called to active military duties and only have limited use of any hunting and/or fishing licenses. Present law requires purchases of all licenses.

Whereas, currently the law allows the active arm forces personnel to buy a deer (archery or gun) license without the usual waiting period.

Whereas, the arm forces personnel are risking their lives and time to ensure that all Americans will continue to live in a free country, there fore the citizens of Wisconsin would like to thank them for their efforts.

Be it resolved the conservation congress in LaFayette County on April 10, 2006 recommends that any active arm forces personnel on furlough or leave in Wisconsin during any hunting/fishing season should be issued a Conservation Patron license at no charge. Also during the spring turkey season, if an armed forces personnel should be on leave in Wisconsin they should be given a turkey tag for the season they are here for.
